## THE DAILY SENTINEL RUFUS KING & WM. H. WATSON, PROPRIETORS.

MILWAUKEE: Saturday Morning, April 25. The Judicial Majority.

We have now the official returns from 29 cour ties, casting 71,620 yotes, and giving Judge Whiton 11,102 majority. In the remaining counties, 17 in number, mostly small ones, Fremont had last fall about 1,000 majority, and as Whiten gains in the central and northwestern counties he is not likely to have less than 12,000, majorisy-and this, it will be noted, is with only a two thirds vote polled. A full vote, in the same proportion, would give a Republican majority of 18,000 in the State !

Milwaukes Hayber-The Straight Cut-Mayor Caoss, to his fate Message, dwelt at some length upon the advantages which must secrue to Milasukee, from the improvement, now in progress, of our Harbor, as well as the importance of prosecuting the work as rapidly as may bo. Our readers are doubtless aware that the plan of improvement contemplates, the extension of the Harbor piers some threat or four hundred feet farther into the Lake, so as to reach fifteen feet water. As it is useless to look to the Federal Government for any present help, Milwaukes must do this work berself; and the sooner we set about it, the better. The Common Council bave authority to direct the necessary expenditures, and HASSROUGE & CONRO, the contractors who built the new piers and have given the city a first rate jeb, are now here, ready and willing to go on with the work. Theze gentlemen, we understand, will take the contract on favorable terms and agree to finish the Harbor by the lat of September next. It seems to us far better economy to employ known and tried men, whose work has been abundantly tested by the severest storms and most inclemen season experienced here for many years, than to give the job to new contractors, at nominally lower rates. We hope, therefore, that the Council, at their next meeting on Monday, night, will take the requisite steps for prosecuting our Harbor improvement. It would be well, too, for the Board of Trade, which especially represents the commercial interests of our city, to move in this matter, and we take leave to suggest that they hold a meeting for that purpose to-night,-In this, as in similar cases, time is money and delays dangerous. Milwaukee, with the old Government entrance maintained in its present condition and the Straight Cut completed, wil boast of incomparably the safest, best, most accessible and most capacious Harbor on the whole chain of Lakes. A few month's work, and the expenditure of \$80,000 to \$50,000, will secure this great desideratum. With such a prize in view, we ought not to hesitate. Let us then resolve to prosecute and complete our Harbor Im-provement without delay.

Mr. Gunnison Re-Instated. A few weeks since Mr. H. W. Gunnison, the

Superintendent of Construction, for the new Custom House and Post Office Building in this city, was summerily removed and Mr. GARRET BARRY appointed in his place. Yesterday's mail brought an order from the Secretary of the Treasury removing Mr. BARRY and re-instating Mr. Gunrison. Accompanying this was a letter from Secretary Conn. stating that Mr. Generook's auswer to the charges which had been filed spains; him, had been carefully examined and found entirely satisfactory. The re-instatement of Mr. GURKISON is a simple act of justice to a competent and faithful officer. We know nothing as to the charges upon which he was removed, but we are very mure that they did not touch his qualifications for the office, or his efficient and honcet discharge of its duties. We take great pleasure, therefore, in announcing his re-instatement.

THE PARTY WHITE-WASHER. - The News, which wears the Buchanan livery, makes haste to defend and justify the fraudulent allowance of usand dollars to RICHARD W. THOMPSON of Indiana-a renegado Whig-estensibly for services claimed to have been rondered to the Menomonee Indians, which they denied and re : pudiated, but more probably for beloing to carry Indiana for Buchanan, by means of the Know-Nothing dodge. As the News had already on dorsed and defended the infamous Dred Scott decision, it could not well do less-its "official" relations considered—than justify this 350,000 swindle. Galphinism, it appears, has revived under the suspices of the Buchanan Administra-

MARQUETTE COUNTY-OFFICIAL.-The Berlin Courant brings us the official vote of Marquette County, on Chief Justice. Whiton has 2018; Cothren 842-Whiten's majority, 1176. No returns from Seneca, Crystal Lake and Harris which would have added 40 to Whiton's majority. Wheeler is elected County Judge, and there is a majority of 1173 against removal of County

MORE OFFICIAL RETURNS .- Waupacea County Whiton 662, Cothren 81; this is, we presume the return from the " Weyauwega" towns. Woop Co .- Whiton 210, Cothren 79. Burralo Co.-Whiton 172, Cothren 162.

SHAWARO COUNTY .- The Appleton Crescen (Dem.) says, that Shawano County, on a light vote, has given about 50 majority for Chief Jus tice Wilton.

ANOTHER ATTEMPT AT MURDER.—The office of the Boston House of Correction, and of the State Prison, have dangerous berths. Two of of a thaw. shem have been murdered by prisoners during the past winter, and we learn by the last Traveller that Mr. Sawyer, the officer upon whom Onier made the assault which sent him to the State Prison, has just been stabbed by another

the whole of it, we present an abstract below.

The enormous swindle upon the State by the late Barstow Administration, by which the people were to pay half a million of dellars for an Asylum, is fresh in the memory of all. Still, the demand for an institution in which the untertunite insane of our State could be properly cared for was 'so pressing, that the Legislature listened to the call, and enacted this law. It is a = 100.

MILWAURER & MISSISSIPPI R. R.—INCREASING TRAVEL .- The opening of the Pioneer road, brough to the Mississippi, has already doubled the travel on that thoroughfare, and, as the read occomes known, it must be the favorite one to and from the Upper Mississippi. The passenger

day, for the first time, we believe, in Wisconsin, by an organized Society, was held on the 29rd stant, at Madison. A dinner was provided in true English style, after which the customary toggte were given, and responded to with much cuthusiasm. Joseph Honnins, M. D., presided, and the Society's Chaplain, Rev. Davin Kuens, Rector of St. John's Church in this city, was precent on the occasion. The prospects of the So ciety are of an encouraging character. Its chief object is the relief of Englishmen in distruss. It was incorporated by the Legislature in October 1856, and copies of the Charter and Constitution will be forwarded on application to J. W. MAT-BEW, Sec'v at Madison.

Opening of the New York Canols. Albany on Tucsday last and adopted the following resolution :

Resolved, That the Canals of this State be beened and ready for navigation on Wednesday, the 6th day of May next.

These elections do demonstrate this fact beyond a cavit—that the sentiment of the great impority of the people of this Union is irrevocably opposed to the extension of slavery; that they are determined, if overwhelming public sentiment can avail anything, another slave state shall not be admitted into the confederacy. And why are they so determined? Because they believe, and not only believe, but see and know, that slavery is an unmitigated curse to the soil that sustains it. They know this, because they see year free state outstripping every slave state in

His (Scatchard's) skill as a penman enabled him to forge the name of any man so accurately as to defy detection. Added to which, he was an adept in the telegraphic art, and while he resided in New Orleans exercised his ingenuity upon the wires in a remarkable manner. Living in the outskirts of the city, near the telegraph lines, he made a counterfeit telegraph pole, with a hollow space through the center, in which he inserted an insulated wire, and brought it in secret contact, through a hole in the glass insulator, with the main wire of the lines. Then continuing the branch wire to his own house, he was enabled to read any of the messages that were enabled to read any of the messages that were enabled to read any of the messages that were sent to, or from New Orleans, and make such use of the information as he pleased. To effect Huntington's release he would forge the name of the Governor to a pardon, and before it was presented take possession of the telegraph above and bolow Sing Sing, and by his peculiar machinery intercept the inquities of the Warden to the Governor at Albany, or the District Attorney at New Year Read the particular of the parton. on, by a confederate at the proper moment, and Huntington was to fly with him to this city, where a swift-sailing schooner was to await them,

and instantly put to sea, and make for Harana, or the Isle of Pines. NEAT REJOINDER .- The St. Louis Leader,

few days since, contained the following para graph:

Whereunto the Minneaota Times thus tartly replies:

That city shows great heatility towards every other place that tends to shear off her trade. She has never done anything herself towards niding or assisting any Raibode. her trade. She has never done anything her-self towards aiding or assisting any Railroads; but she feels as proud of those that have been built in spite of her, by capitalists from abroad, as though it had been done by her own citizens. It is not unfrequent that we see in the Chicago papers contemptuous sacers at the idea of a suc-cessful ferry from Milwaukee to Grand Haven; and owing to a feeling of rivalship, Milwaukee city and Milwaukee interests have much solici-tude in these ferry-boats, and the road across

ude in these ferry-boats, and the road across Michigan.

Milwaukee is a beautiful city. It is located Milwaukee is a beautiful city. It is located to the rear. Its topography is such that from many points in and around the city, it could all be the county of points in and around the city, it could all be viewed, were its population increased to a quarter of a million. It is but twenty-five years since it was but a mere village—a "landing for steamboats" in the most common sense of the steamboats" in the most common sense of the term. Its population now is upwards of forty-five thousand, and in twenty-five years more, if its growth shall equal the probable increase of population in the State, and in lowa and Minnesota, we may asfely calculate that its population will approximate two hundred, or two hundred and fitty thousand inhabitants.

NEW STEAMERS FOR THE UPPER MISSISSIPPL. Five new boats have been built by the Minnesota Packet Company, ducing the past winter, to ply on the Upper Mississippi the current season. Two of these, the Key City and Raska, are already on their way up from Galena, to St. Paul. A third, the Gray Engle, left St. Louis for the Upper Mississippi, last week. The St. Louis Republican thus describes the splendid vessel: THE NEW STRAMER GRET EAGLE FOR THE UP PER Mississiffi.—Still they come—those five new boats lately built by the Minnesota Packet

and from the Upper Mississippi. The passenger trains now run full, and the freight business is increasing rapidly. The Madison Argus, of Thursday, says:

Travel westward has fairly begun. The trains arriving at and passing through this place for several days past have been crowded with passengers. On Tuesday the company were obligied to send out all the cars not in use in Milwauke.

Sr. Gzorge's Day.—The celebration of this day, for the first time, we bolieve, in Wisconsin, the first time, we bolieve, in Wisconsin, the company who superintended her construction, may well be proud of his success in boat building. She is a beautiful model, and is boat building. She is a beautiful model, and i in all respoces a beautiful and graceful bont.—
Her dimensions are: Length on deck 236 feet; beam 36 feet, and five feet depth of hold. She is farnished with four tubular bollers, 42 inches in diameter, and 16 feet long, with five inch fives—the iron being 26 an incheficle. The cylinders are 22 inches in diameter with 7 feet trockets. One is fully equipped with fivens: Safety Valves, water guages and a splendid doctor with bilge pumps and five cugines attached, farnishing het and cold water throughout the boat. She is also provided with a steam expstan, freight holster, It. Seriber farris patent, double-noting rudder, &c. With fuel on board, water in the boilers and in complete running order, the Grey Engle trims on twenty-four inches water, and will carry 600 tons. in all respects a beautiful and graceful bont.

Further Particulars of the Indian Mas-

In the Burlington Hawk Eye, we find a communication from Major Williams, of Fort Dodge, to Gov. Grimes, giving a detailed account of the expedition of volunteers which he commanded and led to Spirit Lake, the scene of the first of the recent Indian massacres.

The Indians are said to have been about 200 that they commenced their depredations

the sed determined? Because they believe, and not only believe, but see and know, that slavery is an unmitigated curse to the soil that sustains it. They know this, because they see to very free state outstripping every slave state in all the elements that make a people powerful and properous; because they see the people in the one educated and thrifty; and in the other ignorant and thrifties; because they have before their eyes a state like our own, once the very Union itself almost, in importance, to-day taking her rank ar a fifth-rate power.

The Huntington Case.—There seems to be a great deal of mystery in relation to the attempt of the man calling himself Scatchard, to get Huntington out of Sing Sing. The N. Y. Tribune says, its facts being taken from the testimony of Chas. I. Kane:

His (Scatchard's) skill as a penman enabled him to forge the asme of any man so accurately as to defy detection. Added to which, he was an adapt in the telegraphic art, and while he relided in New Orleans exercised his ingenuity upon the wires in a remarkable manner. A LOVE AFFAIR. - The Liberty Herald, printed at Liberty, Union County, Indiana, tells the following:
We have been placed in possession of some most melancholy facts in relation to a young man and young lady, the former a resident of Proble county, Ohio, and the latter a resident of Preble county, Only, and the latter a resident of Osford. It appears that the young gentleman is a student at West Point Military Academy, and the lady was his betrothed. Being absent from her a long while, he returned home some from her a long while, he returned home some from her n long while, he returned home some two weeks since, and found her married, and in ner second confinement. Although a correspon-lence had been regularly kept up between them, she had concealed the fact of her marriage, and of course he was startled to find how matters attood on his return. The young man wisely determined to let affairs pass off quietly, and seek friends and fortune in another place.

In view of this determination he concluded not

In view of this determination he constitued not to see the lady, but unwise counsels of friends prevailed with him, and he went to the house where she resided. While in a room adjoining that of the lady, she heard and recognized his voice and expressed a desire for an interview with him. He immediately repaired to the room, where a most affecting some occurred. She asked and obtained his pardon; the interview hard such that the riow closed and they separated. But what she passed through was beyond her power of endurpassed through was beyond her power of endurance, and that night her spirit passed from earth. The young man was not informed of her death until morning, when he attempted self-destruction by jumping into a mill-race not far from where he resided. He would have succeeded in drowning himself but for the accidental appearance of a gentleman, wending his way along the race to the mill. Immediately after he was taken from the water and resuscitated, his friends sent him to Cincinnati, where he would be away from the scenes which would bring to his memory the unhappy circumstances which had overtaken

In 1836, Mile, Duvernay left the opera, to the great regret of its patrons. She went to London, where she met with great success. She was surrounded by the seductive influences which her position and beauty attracted, and soon gave her beart and life to a very rich man, who became position and reach position man, who became passionately attached to her.

Mills. Duvernay had sumptious apartments, elegantly furnished, and numerous domestics; every week she gave a dinner, and invited some of the most gay and distinguished men of London. In a week, she led the most sumptious and luxuious his of the world.

In the meantime, an aristocratic grandam died in London. M'lle. Duvernay was so seriously affected with her obagin that one was compelled to take to her bed. She was visibly changed by her sorrow. The light forsook her eye. Finally, her lover, touched by her tears, her sorrows and her sufferings, entered her apartment one morning, and said to her: "Do not weep, my dear, Miss Temple will remain with you." "Truly? How have you altered her resolution?" "I have just informed her that in eight days I will marry you."

The reader can judge of the effect of this an onencement. Mile. Duvernay was soon restored to health. In a few days she married her lover, Mr. Lyne Stevens, whose father was worth more than £90,000 of revenue, and who assured to his daughter-in-law a dowry of 200,000 francs. And consequently gives proficed satisfaction.

The following facts and faction of the result satisfaction with as are obtained wherever it has been introduced. Within the past year, I have paid three hundred that eventy three debars for reputating laddy and defective tools. The composition und for such la provements is known as West's Calbania Coment, for roofing. I am so well satisfact of the satisfactories roofing in the satisfactories and of the satisfactories of the rather results for roofing purposes, over any other satisfactories must be not the harden so the satisfactories. As we have a specific or the factories of the satisfactories of the satisfactories and satisfactories of the satisfactories. As the satisfactories are satisfactories and satisfactories of the satisfactories and satisfactories. As satisfactories and satisfactories are satisfactories. As satisfactories and satisfactories are satisfactories and satisfactories. As satisfactories are satisfactories and satisfactories are satisfactories.

During the winter of 1550 and 7, I had West's Galzenic Cement for roofing, upplied to the Excelsior Block
preced on the corner where the United States field was
burned. This roofing although yet in an unfitting of the
litton, having only about one half the composition of a
complete roof, and that per on in the most unfavorable computer row, and that prespects answering the purpose of a complete roof. These facts, together with many others within my knowledge are such that I tuly concur in the spinion expressed by men who have had years of experience with this receing material, that it is lie most perfect and reliable action to recovering buildings that has yet been offered to the public. J. B. OROSS, Mayor of the city of Milwaukce.

I have had the composition above referred to applied to the Methalic Bouse, during the post whater, and my syncretice, knoated go and opinion correspond with and fully corroborate the above facts and conclusion.

DAN'L NEWHALL.

From our knowledge of the composition for covering includings, known as West's Galvania Cement, for rooting, which has been very extensively used in this city the past year, with perfect satisfaction to those who have accepted it, we most cheerally recommend it as superior to any other articles of the kind n w in use, and worthy of the faliest confidence of the public.

Cleaning the City.

There is one matter to which we beg leave to call the ion of the Common Council; that is, the cleaning and keeping clean of the city. Under the public ordi-mance it is made the duty of the Police to enforce the or dinances, and there is no ordinance; the suforcement of which is required so much, as that relating to the clean

ing of the streets, &c.

The appointment of "Health officers" for each Word
is, as has been amply proved for years, a mire farce in
effect, and but a waste of public money. Upon the Poties devolven the duties of steing the ordinances enforced and when we inform the public that the expense of the force exceeds the income from fines, &c , by upwards o \$10,000, it will hardly be chimed that the additional ex-pansa of salaries to Health officers should be incurred.— If any man has filth in the alley behind his premises, let a Policeman notify him to have it removed; and if the notice is not complied with, let the Oity Attorney grani a complaint, when a warrant from the Poltes Court MERCHANTS' AND TRADERS' will, we warrant it, bring tuch ones to their souses. If be clean, and by following it up might be kept clean.

Never was the city generally in such a fithy condition as it now he; some or the alleys already sink with the fifth that has been accomutating through and lain there since winter. Along the dock on the west stde or East Water street there is almost a mile of every kind of auto-sance and garbage, this should be removed; in some places it is nonrly a foot deep, and will be unwholesome and most lizely to produce disease when the warm weath-Another thing to which we would call the attention of

the Council is, to designate some place where this fifth, if ever it is removed, must be thrown or left. In too many SIDNEY L. ROOD, LEONARD KENNEDY, CHESTER ETELE, BENJ. BAGNALL, ANTEONY G. VAN BOHALOK. instances the fifth that has been collected off the public treets and alleys, has been used for filling up lots, and shat too, in close p.roximisy to thickly settled and bust-ness parts of the city. A more certain way to make a city unhealthy could hardly be devised. This state of things should be prohibited in the future. The cleaning of the city should be attended to immediately; after communcing, it will take some time to com

ENTERTAINMENT FOR CHILDREN .--- While is Obleage, Dr. Baird gave two afternoon lectures and exhibitions of paintings, accompanied by stories about Europe, for children. The papers reported that the entertakements afforded a great fund of amount ent and instruction for 'the little folks,' and were equally entertaking to the large mun ber of ladies who were also presented in the little folks. ent. The stories related to the laws, customs, amuse-mants, continues, other, splendid edificer, &c., of all the European nations. We understand that the same exhibitions will be given by Dr. Baird, at Young's Hall, on Wednesday and Thursday afternoon next, commencing at 8 c'elest, and that the admission will be but 10 cents for all ages. forever; but we must remember the manner in which the Police and the Law, in the name of morality, destroyed the Palate Eogal, of Paris, only to show the dirt and fith to concentrate itself at the Eonlewards and other places. We must remember that the Police of Milwauker, the contentrate itself at the Eonlewards and other places. in a similar manner, broke up the don of "Steeky John," simply to order that it might be allowed to sgain collect itself in Vitet Street and elsewhere throughout the city — PANORAMA, What course of action does this suggest? We must take ontaining 8 Pictorial and 6 Moveable Views, some measure that will forever rid us of this nulsance—w WITH THE MOST WONDERFUL CHANGES, must do comething to protect our young men against the monstrons rices these dens of infamy propagate, and it is the business of the Police to devise some plan by which WILL BE EXHIBITED IN CONCERT HALL

HAMMAR, April 24.

The steamer America arrived here last even-ing, but in consequence of the prostration of the whes, we were unable to transmit her news. The America left Liverpool Saturday morning, April Ith.
The political news presents no feature of special importance. The final contests in the Brit ish general election had taken place, and as usual, resulted in a majority of cases in favor of the Palmerston administration. Estimates of the strength of the Ministry in the new Parliament, varied so widely that nothing short of an actual division on a test question, could settle the point. The Austrian and Serdinian difficulty semains n statu quo.

The cotton market had a degressing tendency.

Quotations were barely maintained.

In breadstuffs, a general dullness pervaded the market. Flour and wheat nowinally unchanged, although the tendency was decidedly downward. Corn is queted a triffe lower, but closed steady at the decline. Provisions generally showed no change of tunners. change of moment.
